## CEBS COMPLIANCE

CEBS Compliance status is a formal recognition of the ongoing, career-long professional development that CEBS graduates maintain to best serve their plan participants, employers, and other stakeholders. CEBS Compliance means you are a leader in the profession.

It means that the professional development activities you are already doing—for professional enrichment, to maintain a license or designation, or just to stay up to date—can be formally recognized for contributing to the professional currency that CEBS graduates are known for.

Maintaining CEBS Compliance status helps you keep your professional skills sharp. It upholds the reputation of the CEBS designation and the community of benefits professionals who have earned it.

As a Society member, you have access to a variety of educational activities that you can apply towards CEBS Compliance. Complete details on CEBS Compliance, including eligible topics and frequently asked questions, are available at [www.cebs.org/compliance](http://www.cebs.org/compliance). Familiarity with this information will help you be sure you're earning and reporting your credits correctly.
